

Would you like to learn more about the VNI West project?

Come and meet with the Transmission Company Victoria (TCV) team to learn more about the route refinement process and project impact assessments. Specialists will be available to discuss agriculture, compensation and environmental issues.

VNI West Community Reference Group seeking new members

TCV is looking for residents from the areas of Buloke, Gannawarra, Loddon and Northern Grampians to join the VNI West Community Reference Group (CRG).

TCV is seeking community-minded people who are ready to get involved and share ideas, to help minimise impacts and deliver long-lasting community benefits from the VNI West project. Members of the CRG independently represent the needs and interests of their community, providing essential local knowledge as the VNI West project team plans and seeks approvals for this important infrastructure project.

The CRG has been running since 2023. The group has met five times and will look to meet every two months either in person or online.

Have your say on VNI West

Head to our website to complete our survey and help us understand what could change as a result of the VNI West project, including potential negative impacts and opportunities for the project to support positive change.

This information can help with the design programs, policies and initiatives that minimise negative impacts and maximise positive impacts.

TUE
12 NOV
4-7pm

**Charlton

Hall**

THU
14 NOV
4-7pm

**Stawell
Entertainment
Centre**

These sessions will be one of many opportunities to engage with the project as it progresses. We're here and we're listening - in the near future, you'll see our team on a more regular basis at pop ups across the project area. We will provide details of these sessions as they are confirmed through our website and social media.

Get in Touch

You can learn more about upcoming community sessions and apply to join the CRG through our website below.
